

# KEY Planner

Create professional budgets for use by farmer, manager and consultant

KEY Planner is Landmark's budgeting tool designed in conjunction with consultants for the agriculture industry.

This product is ideal for those who are re-assessing farm enterprises, need to produce forecasts and multiple budgets quickly and simply, or want a 'what if?' calculator.

## Benefits

- Logical data entry – gross margins to profit summary to cashflow allocation
- Improved business forecasting
- Create multiple budget scenarios – alter yields and costs per hectare easily
- Better budget vs actual performance reporting
- More accurate than Microsoft Excel – inbuilt system checks
- Tried and tested by consultants – industry standard software

## Included as standard

- KEYPrime Accounts Import
- Detailed enterprise budgeting
- Profit share calculations and divisible surplus ratios
- Auto-calculation of interest
- Detailed VAT allocation
- Comprehensive reporting, including formatted booklet

## Don't just take our word for it...

*As an agricultural consultant I use KEY Planner for providing budgets and plans for a wide range of farming clients. It is user friendly and flexible. Most importantly the consistent reporting format, with both P & L and cashflow, is user-friendly and well received by banks and other lenders.*

**Robert Hall, Hall Consultancy**
