

SMARTVIEW PLUS

FOR THE KEYPRIME SOFTWARE RANGE

A module that lets you see your KEYPrime figures in a graphical view, which can be filtered to analysis code level.

WHAT IS IT?

The Smartview Plus module is an extension of the Smartview function in KEYPrime, which provides you with pre-defined graphical views of your figures. Smartview Plus allows the user to customise and filter their graphical views by nominal, enterprise and analysis code level.

A SIMPLE EXAMPLE

Cashflow for defined Enterprises split by Nominal (Sales & Purchases) and Enterprise (Sheep vs. Cattle)

Nominal filter

- (All)
- Control Accounts
- Fixed Assets
- Liabilities
- Misc. Receipts
- Opening Bank
- Overheads
- Private
- Purchase
- Sales

Enterprise filter
Sheep

Enterprise filter
Cattle

THE BENEFITS

No need to run reports. Fast access to screens showing performance in real time.

A more visual reporting style. Ideal for those who prefer graphs to numbers.

Professional. A helpful addition to the monthly, quarterly and annual reporting packs.

Straightforward. Ideal for less regular users of KEYPrime.

Module compatible with:
